WORK WITH US

BRAND STRATEGY + IDENTITY

We craft thoughtful, cohesive identity systems that account for all angles of the competitive landscape—creating a strong bridge between your business and customers.

CONTENT DEVELOPMENT

From creative copywriting and social media to engaging photography and full length video spots, our passion is storytelling and we truly believe it all starts with great content.

WEB DESIGN + DEVELOPMENT

A website is often a brand's most meaningful point of interaction with its audience. We create websites that deliver a powerful first impression and are easy for clients to manage.

CUSTOM APPAREL + PROMO

From corporate swag to eCommerce clothing lines, we produce top-notch apparel, merch, and promo goods to keep your people looking fresh and feeling good about repping you.

DIGITAL MARKETING

With sound strategy, bold thinking, and impactful creative, we deliver digital marketing campaigns that break through the noise and successfully connect with your customers.

PRINT COLLATERAL + TRADESHOW

Print advertising can still be a crucial part of today's integrated marketing campaigns, creating brand awareness and aligning offline marketing efforts with your new digital strategy.

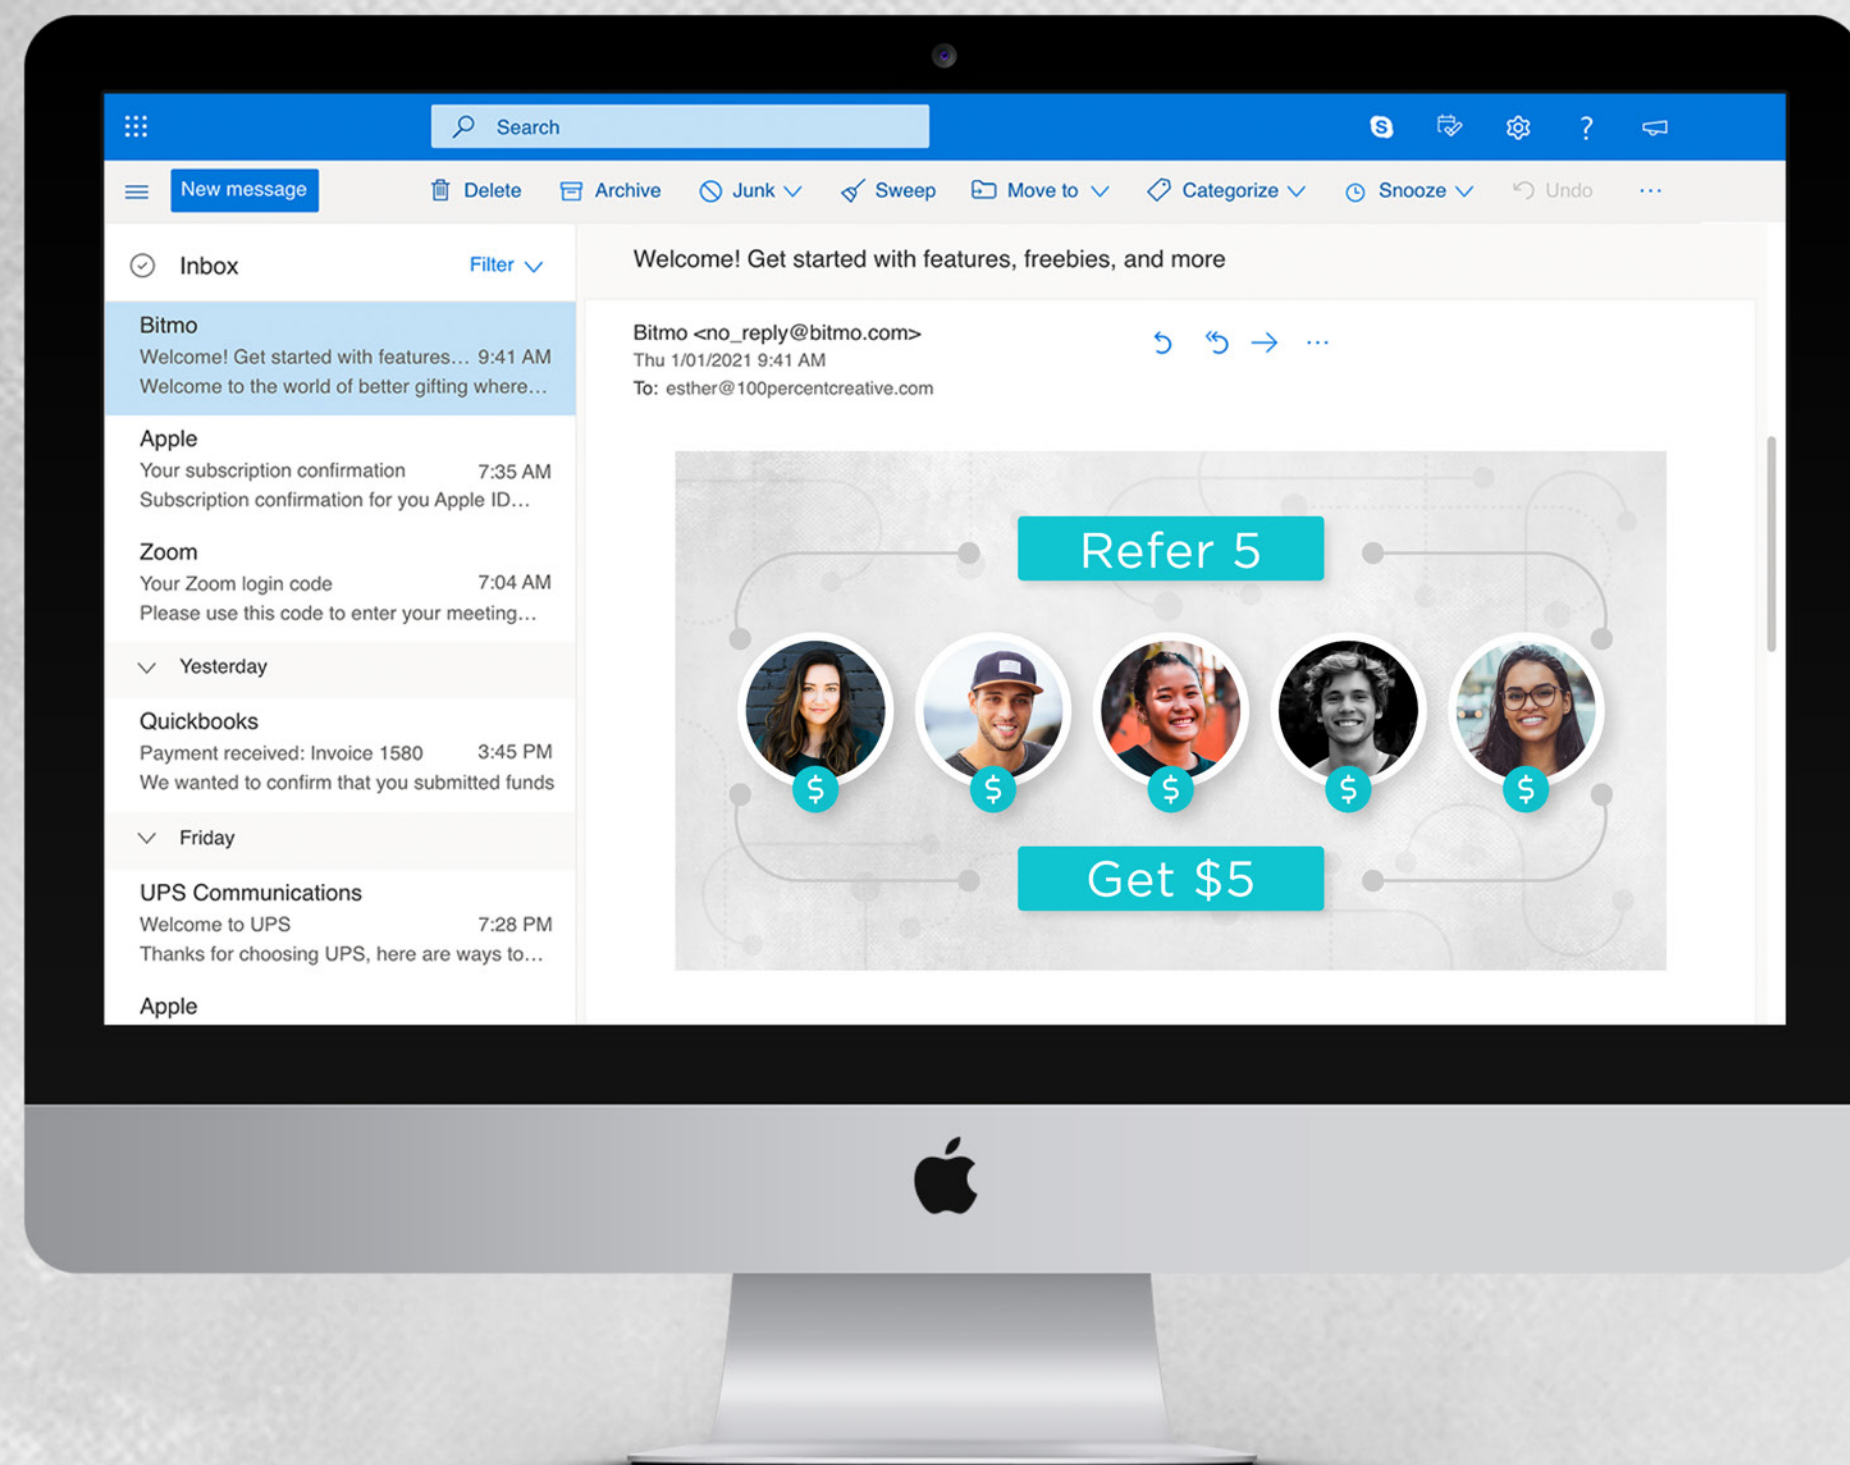

bitmo

BITMO does to the plastic gift card what Venmo did to the paper check. The mobile gift card app leverages gifting as the gateway to drive measurable traffic through mobile payment and a social-mobile gifting platform to drive growth in mobile payments. Gifts are social, easy as a text message, and redeemed right from the phone. Shop, earn, and redeem at 140+ nationwide retailers.

OSKA WELLNESS is revolutionizing the medical technology space with its wearable Pulsed Electro-magnetic Field (PEMF) device for pain relief at the cellular level. It uses electromagnetic waves that pulse on precise frequencies, enabling cells to recover their ability to create energy, function, and reproduce. Oska Pulse lets you benefit from this clinical technology on the go.

HOW IT WORKS TESTIMONIALS CLINICAL RESEARCH GETTING STARTED [BUY NOW](#)

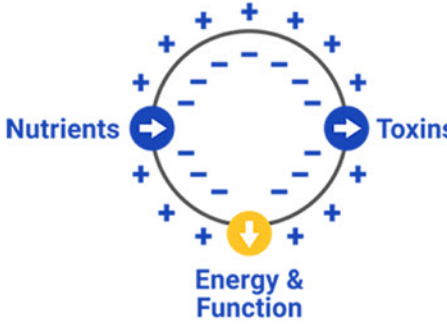

Proven Medical Technology That Integrates Into Your Life

Pulsed Electromagnetic Field (PEMF) therapy has 60 years of clinical success in relieving pain at the source by pulsing electromagnetic waves at precise frequencies, which speed the body's recovery at a cellular level.

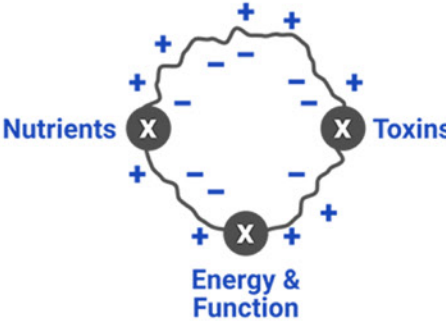

[LEARN MORE](#)

How PEMF Works

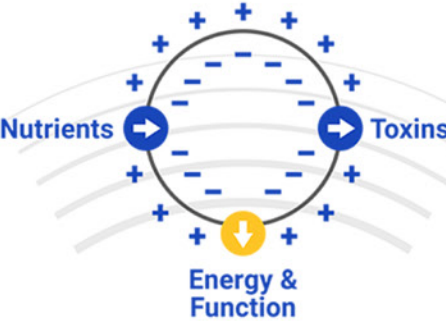

When cells become distressed from disease, trauma or toxins, they lose their ability to function efficiently. PEMF restores the positive and negative charges in the cell, enabling it to perform its natural function while speeding tissue recovery.

Healthy Cell

Distressed Cell

PEMF Restored Cell

Oska Pulse emits a unique series of Pulsed Electromagnetic Fields at precise frequencies targeted on four key tissue types resulting in:

-  Repaired Capillaries
-  Stimulated Collagen
-  Increased Bone Recovery
-  Reduced Pain Signal

“

I truly believe that the Oska device is one of the safest and most effective treatments for pain to come along in my 25-year career as a board-certified pain management specialist.

”

Dr. Jonathan Kost
Medical Director
Hartford Hospital Pain Treatment Center
Spine and Pain Institute at Midstate

Oska Pulse works at the source of pain instead of just masking symptoms.

If you're like millions of others in pain, you've tried almost everything to feel better. Now it's time to try non-drug pain relief from Oska Pulse.

Clinically proven to reduce inflammation, increase circulation, improve mobility and relieve pain, Oska Pulse is part of your pain management toolkit. Use it at home, on the go or in partnership with your doctor.

Pulsed Electromagnetic Fields (PEMF) boost the body's ability to repair injured cells to relieve all types of pain:

- ✓ Back
- ✓ Neck
- ✓ Joint
- ✓ Knee
- ✓ Muscle
- ✓ Chronic

my patients who used Oska Pulse, of chronic pain profiles, found relief. al non-drug pain relief solution.

Dr. Joseph Shurman
of Pain Management and Co-Chair Palliative Care
Scripps Memorial Hospital, La Jolla, CA
